Dear Helen Stefanovic:

Please refer to your supplemental new drug applications (sNDAs) dated and received, October 7, 2025, for S-004 and February 10, 2026, for S-005 and your amendments, submitted under section 505(b) of the Federal Food, Drug, and Cosmetic Act (FDCA) for Ojjaara (momelotinib) tablets.

Prior Approval S-004 provides for the following changes: Revision to Section 6.2 Postmarketing Experience of the Prescribing Information to add the adverse reactions of hypersensitivity and erythema multiforme; and to revise the carton and container labels to implement electronic patient information.

We also refer to our letter dated December 12, 2025, notifying you, under Section 505(o)(4) of the FDCA, of new safety information that we have determined should be included in the labeling for JAK inhibitor class products for hematological indications. This information pertains to the risk of symptom exacerbation following treatment interruption or discontinuation.

The marked-up copy should provide appropriate annotations, including supplement number(s) and annual report date(s).
