**DEEMED GRANTED -

Attention: Michael Cecchini
Laboratory & Quality Manager
10 Erie Boulevard
Menands, NY 12204

Dear Michael Cecchini:

Please refer to your May 20, 2026, request, received on May 20, 2026, for certification of Air, USP as a designated medical gas. You have requested to market Air, USP, for human and animal use.

A request for certification of a medical gas as a designated medical gas submitted under section 575(a)(1) of the Federal Food, Drug, and Cosmetic Act (FD&C Act) is deemed to be granted unless, within 60 days of the filing of the request, FDA finds that one or more of the bases for denying the request listed at section 575(a)(2) of the FD&C Act applies. FDA has made no such finding in connection with your request, and 60 days have passed since your request was filed. Accordingly, by operation of section 575(a)(2) of the FD&C Act, your request for certification of Air, USP, as a designated medical gas is deemed to be granted, and you now have in effect an approved new drug application (NDA 221805) and an approved new animal drug application (NADA N-141-629) for this gas effective July 19, 2026.

If any of the information you have submitted in connection with your request changes, such as where the gas is manufactured or changes in applicant information, you will need to submit an updated certifications request to these same NDA/NADA application numbers. Please consult section VII.A of the draft guidance document entitled Certification Process for Designated Medical Gases (available at <http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM332136.pdf>) for additional information. Please cite the NDA/NADA application numbers listed above at the top of the first page of any communications concerning these applications.
