Save booklet for future reference

- It takes time to regrow hair. Results may occur at 2 months with twice a day usage. For some men, you may need to use this product for at least 4 months before you see results.

Please read this booklet carefully. It will help you understand how to use Rogaine® Foam and what to expect from its use. If you have any questions after reading this booklet, or anytime while using Rogaine® Foam, you should ask your health care professional or call us at 1-800-ROGAINE (1-800-764-2463). You can also contact us at our website at rogaine.com.

© 2006 Pfizer
What is Men’s Rogaine® Foam?
Rogaine® Foam is a white foam containing 5% minoxidil for use only on the scalp to help regrow hair in men.

Who may use Men’s Rogaine® Foam?
Rogaine® Foam is for use only by men. Rogaine® Foam may be appropriate for you if you are a male at least 18 years old and experiencing gradually thinning hair or gradual hair loss on the top of the scalp (vertex only, as shown on the next page). It is not intended for frontal baldness or a receding hairline. The common inherited thinning or hair loss process begins slowly and may become noticeable only after years of gradual loss.

Rogaine® Foam is for men with hair loss or thinning hair that begins on the vertex of the scalp. Rogaine® Foam is more likely to regrow hair in men with hair loss in the range shown on the next page. If men have more hair loss than shown, Rogaine® Foam may not work.

NOTES TO PRINTER:
- Printer to replace F.P.O. UPC’s with hi-res digital art
- Printer to supply color matchprint for color approval prior to press run
Many of those experiencing hair loss have other family members with gradually thinning hair or hair loss. If you have no family history of gradually thinning hair or of gradual hair loss, or your hair loss is patchy, see your doctor.
Who should NOT use Men's Rogaine® Foam?
- Women should not use Men's Rogaine® Foam.
- Rogaine® Foam should not be used on babies or children under 18 years old.
- Rogaine® Foam will not prevent or improve hair loss which may occur with the use of some prescription and non-prescription medications, certain severe nutritional problems (very low body iron; too much vitamin A intake), low thyroid states (hypothyroidism), chemotherapy, or diseases which cause scarring of the scalp.

Also, Rogaine® Foam will not improve hair loss due to:
- damage from the use of hair care products which cause scarring or deep burns of the scalp.
- hair grooming methods such as conrowing or ponytails which require pulling the hair tightly back from the scalp.

Do not use if you are not sure of the reason for your hair loss.

Who should NOT use Men's Rogaine® Foam?

- hair grooming methods such as conrowing or ponytails which require pulling the hair tightly back from the scalp.

Do not use if you are not sure of the reason for your hair loss.
Will Men’s Rogaine® Foam work for me?
The amount of hair regrowth is different for each person. Not everyone will respond to Rogaine® Foam. The response to Men’s Rogaine® Foam cannot be predicted. It is unlikely anyone will be able to grow back all their hair.

However, to see your best results with Men’s Rogaine® Foam, make sure you get the medicine directly to the scalp and apply it twice a day, every day.

You may get better results if you have been losing your hair for a short period of time or have little hair loss. However, for some men Rogaine® Foam may not work.

How soon can I expect results from using Men’s Rogaine® Foam?
Since normal hair usually grows only 1/2 to 1 inch per month, hair regrowth with Rogaine® Foam also takes time.

Results may be seen as early as 2 months with twice daily use. For some men, it may take at least 4 months for results to be seen. If you do not see any results after 4 months, stop using Rogaine® Foam and seek the advice of your physician.

When you **first** begin to use Rogaine® Foam, your hair loss may increase temporarily for up to 2 weeks. This is likely a sign that you are getting rid of old hairs in order to regrow more new hairs. This temporary increase in hair loss is expected and is part of the process for how Rogaine® Foam regrows hair. Remember, this increased hair loss is temporary. However, if it continues after two weeks, see your physician.

If Men’s Rogaine® Foam is working, what will the hair look like?
At first, hair growth is usually soft, downy, colorless hairs (like peach fuzz). After further use, the new hairs should be the same color and thickness as the other hairs on your scalp.

How long do I need to use Men’s Rogaine® Foam?
If you experience hair regrowth, continued use of Rogaine® Foam is necessary or the hair loss will begin again.

What happens if I completely stop using Men’s Rogaine® Foam?
Continuous use of Rogaine® Foam is needed to maintain hair regrowth.

**NOTES TO PRINTER:**
- Printer to replace F.P.O. UPC’s with hi-res digital art
- Printer to supply color matchprint for color approval prior to press run

**FONTS:**

**COLORS:**
- 1

(Note colors are for reference only. Please use approved color drawings when running this mechanical on press.)
If you stop using Rogaine® Foam, you will lose your newly regrown hair in 3 to 4 months.

**How do I use Men’s Rogaine® Foam?**

For best results, apply half a capful **2 times a day directly** to the scalp in the hair loss area. Using more than the recommended amount will not improve results. Each can should last one month, if used as directed.

Never take this product by mouth or apply to other parts of the body.

**When do I use Men’s Rogaine® Foam?**

Apply Rogaine® Foam once in the morning and once at night. Allow the nighttime application to dry completely before going to bed. Each can should last one month, if used as directed.

**What if I miss a dose or forget to use Men’s Rogaine® Foam?**

If you miss one or two daily doses of Rogaine® Foam, just continue with your next dose. You should not make up for missed doses.
Can I use Men's Rogaine® Foam more than twice a day? Will it work faster, better?
No. Rogaine® Foam will not work faster or better if used more than two times a day. More frequent use or larger doses have not been shown to speed up hair growth and may increase your chance of side effects.

What kind of shampoo should I use with Men's Rogaine® Foam?
If you wash your scalp before applying Rogaine® Foam, use a mild shampoo.

Can I use hair sprays, mousses, conditioners, gels, etc.? Yes. Hair sprays, spritz, or styling aids may be used on your hair while using Rogaine® Foam. For best results, Rogaine® Foam should be allowed to soak into the scalp before using any styling products. Try to develop a good routine of applying Rogaine® Foam first, and then applying styling products and style as usual. Keep in mind that your best results will be seen with proper application.

Can I use Men's Rogaine® Foam more than twice a day? Will it work faster, better?
No. Rogaine® Foam will not work faster or better if used more than two times a day. More frequent use or larger doses have not been shown to speed up hair growth and may increase your chance of side effects.

What kind of shampoo should I use with Men's Rogaine® Foam?
If you wash your scalp before applying Rogaine® Foam, use a mild shampoo.

Try to develop a good routine of applying Rogaine® Foam first, and then applying styling products and style as usual. Keep in mind that your best results will be seen with proper application.
Can I have my hair colored or permed or use hair relaxers while using Men's Rogaine® Foam?

Yes. We have no evidence that coloring or perming your hair or that the use of relaxers change the effect of Rogaine® Foam. However, because the use of a permanent wave and hair color can cause scalp irritation on certain people, we recommend the following precautions:

1. To avoid possible scalp irritation, you should make sure all of the Rogaine® Foam has been washed off the hair and scalp before using color or perm chemicals.
2. For best results, do not apply Rogaine® Foam on the same day that you use a chemical treatment on your hair.
3. Do not use Rogaine® Foam for 24 hours after using any chemical to make sure your scalp has not been irritated by the perm or color treatment. If no irritation occurs, continue use of Rogaine® Foam as usual.
4. Simply restart your normal Rogaine® Foam routine. There is no need to use more Rogaine® Foam to make up for missed applications.

Missing one day of Rogaine® Foam will not affect your hair regrowth results.

Can I apply Men’s Rogaine® Foam and wash my hair an hour later?
No. For Rogaine® Foam to work best, you should allow it to stay on the scalp for about 4 hours before washing.

Using the Product:
• To open container: Match arrow on can ring with line on cap. Pull off cap.
• Within the hair thinning area, part the hair into one or more rows to maximize scalp exposure.
• The foam may begin to melt right away on contact with your warm skin. If your fingers are warm, rinse them in cold water first. (Be sure to dry them thoroughly before handling the foam.)
• Hold the can upside down and press nozzle to dispense the topical foam product onto your fingers. The total amount of foam applied should not exceed half a capful.
• Using your fingers, spread the foam over the hair loss area and gently massage into scalp and then wash your hands well.

• you are under 18 years of age. Do not use on babies or children.
• your scalp is red, inflamed, infected, irritated, or painful
• you use other medicines on the scalp

FOR REFERENCE ONLY
Ask your doctor before use if you have heart disease. When using this product:
- do not apply on other parts of the body.
- avoid contact with the eyes. In case of accidental contact, rinse eyes with large amounts of cool tap water.
- some people may experience changes in hair color and/or texture.
- it takes time to regrow hair. Results may occur at 2 months with twice a day usage. For some men, you may need to use this product for at least 4 months before you see results.
- the amount of hair regrowth is different for each person. This product will not work for all men.

Stop use and ask a doctor if:
- chest pain, rapid heartbeat, faintness, or dizziness occurs.
- sudden, unexplained weight gain occurs.
- your hands or feet swell.
- scalp irritation or redness occurs.
- unwanted facial hair growth occurs.

Not for use by women.
May be harmful if used when pregnant or breast-feeding.
Keep out of reach of children.
If swallowed, get medical help or contact a poison control center right away.

FOR REFERENCE ONLY
What are the most common side effects with Men's Rogaine® Foam?
The most common side effects are itching and skin irritation of the treated area of the scalp. If scalp irritation continues, stop use and see a doctor. Rogaine® Foam contains alcohol, which will cause burning or irritation of the eyes. If Rogaine® Foam accidentally gets into eyes, rinse with large amounts of cool tap water.

Can Men's Rogaine® Foam produce unwanted hair growth?
Unwanted hair growth on the face and other parts of the body has been reported in women. But it is rare and reversible. If you develop unwanted hair, stop using Rogaine® Foam. Over time, the unwanted hair growth caused by Rogaine® Foam will go away. You can take the following steps to decrease the chances of unwanted hair growth:
1. limit the application of Rogaine® Foam only to the scalp;
2. if you use your hands to apply Rogaine® Foam, wash your hands well immediately afterwards.
