### Drug Facts

**Active ingredient (in each 5 mL teaspoonful)**

- **Dextropropoxyphene polistirex equivalent to 30 mg dextromethorphan hydrobromide**

**Purpose**

Cough suppressant

**Use temporarily to relieve cough due to minor throat and bronchial irritation as may occur with the common cold or irritants.**

**Warnings**

- Do not use if you are now taking a prescription monoamine oxidase inhibitor (MAOI) prescribed for depression, psychiatric or emotional conditions, or Parkinson's disease, or for 2 weeks after stopping a MAOI medication. MAOIs may be prescription or nonprescription, such aswidokifor (seeActive Ingredient). If you are not sure if a medicine is a MAOI, ask your health care professional or pharmacist.

- Do not use if you have used MAOIs in the past 2 weeks.

- Do not use if you have chronic cough that lasts or comes back, unless directed by a doctor.

- Do not use if you have cough that occurs with thick phlegm (mucus).

- Do not use if cough lasts more than 7 days, comes back, or occurs with fever, rash, or headache that lasts, these could be signs of a serious condition.

- Do not use if you are pregnant or breastfeeding.

- Keep out of reach of children.

- In case of overdose, contact a Poison Control Center or get medical help right away.

**Directions**

- **Dilute before use**

  - For children under 2 years of age, use a dose of 5 mg (1/2 teaspoonful) 12 hours.
  - For children 2 to under 6 years of age, use a dose of 5 mg (1/2 teaspoonful) every 12 hours.
  - For children 6 years of age and older, use a dose of 10 mg (1 teaspoonful) 12 hours.

- **Read and follow the directions**

**Inactive Ingredients**

- Aloe vera, citric acid, sodium citrate, sodium hydroxide, sucrose, tragacanth, titanium dioxide, water.

**Questions? 1-866-682-4639**
Ask a doctor before use if you have chronic cough that lasts as occurs with smoking, asthma or emphysema: cough that occurs with much phlegm (mucus). Stop use and ask a doctor if cough lasts more than 7 days, cough comes back, or occurs with fever, rash or headache that lasts. These could be signs of a serious condition. If pregnant or breastfeeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

Directions
Shake bottle well before use. Dose as follows or as directed by a doctor.

Adults and children 12 years of age and over:
1 teaspoonful every 12 hours, not to exceed 4 teaspoonfuls in 24 hours.

Children 2 to under 6 years of age:
1/2 teaspoonful every 12 hours, not to exceed 1 teaspoonful in 24 hours.

Children 6 to under 12 years of age:
1 teaspoonful every 12 hours, not to exceed 2 teaspoonfuls in 24 hours.

Active ingredient Purpose
In each 5 mL teaspoonful: 10 mg dextromethorphan Polistirex, equivalent to 30 mg dextromethorphan hydrobromide. This temporarily relieves cough due to minor throat and bronchial irritation as may occur with the common cold or inhaled irritants.

Warnings: Do not use if you are now taking a prescription monoamine oxidase inhibitor (MAOI) (an anti-depressant drug) or for 2 weeks after stopping a MAOI drug. If you do not know if your prescription drug contains an MAOI, ask a doctor or pharmacist before taking this product.
