

Proposed Furadantin 230 mL Carton

(b) (4)

Furadantin
(nitrofurantoin)
oral suspension
25 mg/5 mL

NDC 50630-450-06

Store between 20°-25°C (68°-77°F); excursions permitted to 15°-30°C (59°-86°F). [See USP Controlled Room Temperature]. Avoid exposure to strong light which may darken the drug. Protect from freezing. Keep out of reach of children.

SHAKE VIGOROUSLY.

Dispense in a tight, light-resistant glass container.

USUAL ADULT DOSE: 50 to 100 mg q.i.d. with food.
Children: 5-7 mg/kg of body weight per 24 hours, given in four divided doses.
Each teaspoonful (5 mL) contains 25 mg nitrofurantoin.

See package insert for full prescribing information.
