Drug Facts

Active ingredient (in each capsule)
Naproxen sodium 220 mg (naproxen 200 mg) (NSAID)*

Purposes
Pain reliever/
fever reducer

*nonsteroidal anti-inflammatory drug

Uses
temporarily relieves minor aches and pains due
to:
- minor pain of arthritis
- muscular aches
- backache
- menstrual cramps
- headache
- toothache
- the common cold
temporarily reduces fever

Warnings
Allergy alert:
Naproxen sodium may cause a severe allergic reaction, especially in people allergic to aspirin.
Symptoms may include:
- hives
- facial swelling
- asthma (wheezing)
- shock
- skin reddening
- rash
- blisters
If an allergic reaction occurs, stop use and seek medical help right away.

Stomach bleeding warning:
This product contains an NSAID, which may cause severe stomach bleeding. The chance is higher if you:
- are age 60 or older
- have had stomach ulcers or bleeding problems
- take a blood thinning (anticoagulant) or steroid drug
- take other drugs containing prescription or nonprescription NSAIDs (aspirin, ibuprofen, naproxen, or others)
- have 3 or more alcoholic drinks every day while using this product
- take more or for a longer time than directed

Do not use
if you have ever had an allergic reaction to any other pain reliever/fever reducer
right before or after heart surgery
Ask a doctor before use if

the stomach bleeding warning applies to you
you have a history of stomach problems, such as heartburn
you have high blood pressure, heart disease, liver cirrhosis, or kidney disease
you are taking a diuretic
you have problems or serious side effects from taking pain relievers or fever reducers
you have asthma
Ask a doctor or pharmacist before use if you are
under a doctor's care for any serious condition
taking any other drug
When using this product

take with food or milk if stomach upset occurs
the risk of heart attack or stroke may increase if you use more than directed or for longer than directed

Stop use and ask a doctor if
you experience any of the following signs of stomach bleeding:
- feel faint
- vomit blood
- have bloody or black stools
- have stomach pain that does not get better
- pain gets worse or lasts more than 10 days
- fever gets worse or lasts more than 3 days
- redness or swelling is present in the painful area
- any new symptoms appear
- you have difficulty swallowing
- it feels like the capsule is stuck in your throat
If pregnant or breast-feeding, ask a health professional before use. It is especially important not to use naproxen sodium during the last 3 months of pregnancy unless definitely directed to do so by a doctor because it may cause problems in the unborn child or complications during delivery.

Keep out of reach of children.

In case of overdose, get medical help or contact a Poison Control Center right away.

Directions
do not take more than directed
the smallest effective dose should be used
drink a full glass of water with each dose
If taken with food, this product may take longer to work

Adults and
children 12 years and
for the first dose you may take
older:
2 capsules within the first hour
do not exceed 2 capsules in an 8- to 12-hour period
do not exceed 3 capsules in a 24-hour period

ch children under 12 years:
ask a doctor
