Drug Facts

Active ingredients (in each tablet):

Dextromethorphan Hydrobromide 6 mg

Inactive ingredients:

Uses

Dextromethorphan Hydrobromide is a cough suppressant. It works by increasing the amount of mucus in your throat.

Warnings

Stop use and ask a healthcare professional if: you have a nagging cough that does not improve after 7 days or returns after 2 or more days of use, or symptoms worsen or persist for more than 7 days. A healthcare professional may even prescribe a medicine for your condition that relieves cough symptoms.
