**Drug Facts**

**Active ingredient**
Adapalene 0.1% (retinoid)*

**Purpose**
Acne treatment

**Warnings**

- For external use only
- Do not use on damaged skin (cuts, abrasions, eczema, sunburn)
- If you are allergic to adapalene or any of the ingredients in this product.
- If pregnant or breast-feeding, ask a doctor before use.
- When using this product:
  - Limit sun exposure, including light from tanning beds, and use sunscreen when going outdoors
  - Do not wax to remove hair in areas where the product has been applied
- Irritation (redness, itching, dryness, burning) is more likely to occur:
  - In the first few weeks of use
  - If using more than one topical acne medication at a time
  - But irritation usually lessens with continued use of this product
- It may take up to 3 months of once daily use to see results
- Avoid product contact with eyes, lips, and mouth. If contact occurs, immediately flush the area with water.

**Directions**

- Adults and children 12 years of age and older: use once daily
- Clean the skin gently and pat dry before applying the product
- Cover the entire affected area with a thin layer. For example, if your acne is on the face, apply the product to the entire face.
- Do not use more than one time a day. Applying more than directed will not provide faster or better results, but may worsen skin irritation.
- Children under 12 years of age: ask a doctor

**Inactive ingredients**
carbomer 940, edetate disodium, methylparaben, poloxamer 182, propylene glycol, purified water and sodium hydroxide. May contain hydrochloric acid to adjust pH.

### Use

For the treatment of acne

### Warnings

For external use only

Do not use

- on damaged skin (cuts, abrasions, eczema, sunburn)
- if you are allergic to adapalene or any of the ingredients in this product.
- if pregnant or breast-feeding, ask a doctor before use.

When using this product

- limit sun exposure, including light from tanning beds, and use sunscreen when going outdoors
- do not wax to remove hair in areas where the product has been applied during the early weeks of use, your acne may appear to worsen before it improves (this is normal); continue using as directed, unless you get irritation that becomes severe
- irritation (redness, itching, dryness, burning) is more likely to occur:
  - in the first few weeks of use
  - if using more than one topical acne medication at a time
  - but irritation usually lessens with continued use of this product
  - it may take up to 3 months of once daily use to see results
- avoid product contact with eyes, lips, and mouth. If contact occurs, immediately flush the area with water.
- wash hands after use

Stop use and ask a doctor if

- you become pregnant, or are planning to become pregnant, while using the product
- you have symptoms of an allergic reaction (such as itching, rash, hives, swelling of the lips, eyelids, and shortness of breath)
- irritation becomes severe
- you see no improvement after 3 months of once daily use

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.
