**Do not give more than directed.**

**Find right dose on chart. If possible, use weight to dose; otherwise use age.

**Directions:**

- Use the provided dosing cup.

- Shake well before using.

- Do not use more than 2 days or administer to children under 3 years of age unless directed by doctor.

- Do not use more than 8 hours in 24 hours.

- Keep this box for important information. This product is intended for use in children ages 2 years – 11 years. Keep out of reach of children.

**When used as directed:**

- Reduces fever
- Relieves minor aching pain

**When used as directed for 10 days or longer:**

- Increase the risk of heart attack, heart failure, and stroke. The risk is higher if you use more than directed or for longer than directed. It is not used to prevent heart attacks or strokes.

**Heart attack and stroke warning:**

- The chance is higher if the child
  - has high blood pressure, heart disease, liver disease, or kidney disease
  - takes prescription or nonprescription NSAIDs, except aspirin
  - has ever had a heart attack or a stroke
  - has had high blood pressure or heart disease
  - has a history of stomach problems, such as ulcers, heartburn, or bleeding
  - has vomited blood or had black stools
  - has a bleeding disorder

**Stomach bleeding warning:**

- Do not use if breakable ring is separated or missing.

**Precautions:**

- Read all product information before using.

**Warnings or complete warnings for adult use:**

- Do not give to an infant younger than 2 years of age unless directed by doctor.

**Indications:**

- Fever
- Minor aching pain

**Use:**

- Children’s Advil Suspension is for minor aching pain and fever reduction.

**Other information:**

- Do not use more than 2 days or administer to children under 3 years of age unless directed by doctor.

**Sore throat warning:**

- If an allergic reaction occurs, stop use and seek medical help right away.

**Other ingredients:**

- citrate, sorbitol solution, sucrose, xanthan gum
Blue Raspberry-Flavored Liquid 4 FL OZ (120 mL)

Active ingredient (in each 5 mL).............................................. Ibuprofen 100 mg

Uses temporarily reduces fever, relieves minor aches and pains due to the common cold, flu, sore throat, headaches and toothaches.

Warnings

Allergy alert: Ibuprofen may cause a severe allergic reaction, especially in people allergic to aspirin. Symptoms may include: hives, facial swelling, asthma (wheezing), shock, skin reddening, rash, blisters. If an allergic reaction occurs, stop use and seek medical help right away.

Stomach bleeding warning: This product contains an NSAID, which may cause severe stomach bleeding. The chance is higher if the child has had stomach ulcers or bleeding problems, has a blood disorder, or is taking a blood thinner (anticoagulant) or has taken aspirin recently. Stomach bleeding can occur with very little stomach pain or in the absence of pain. If an ulcer or stomach bleeding occurs, stop use and see a doctor right away.

Heart attack and stroke warning: NSAIDs, except aspirin, increase the risk of heart attack, heart failure, and stroke. The risk is higher if you use more than directed or for a longer time than directed.

Sore throat warning: Severe or persistent sore throat may be serious. Consult a doctor promptly. Do not use more than 2 days or administer to children under 3 years of age unless directed by a doctor.

Do not use

- if the child has ever had an allergic reaction to any other pain reliever/fever reducer
- right before or after heart surgery

Ask a doctor before use if

- the child has a history of stomach problems, such as heartburn
- the child has high blood pressure, heart disease, kidney disease, diabetes, or has a blood disorder
- the child has recently stopped taking any other prescription or nonprescription drugs, including aspirin or other NSAIDs

When using this product

- take with food or milk if upset stomach occurs
- if a stomach bleeding warning applies to the child
- the child is under a doctor’s care for other serious conditions
- the child is taking any other prescription or nonprescription drugs

Stop use and ask a doctor if

- child experiences any of the following signs of stomach bleeding:
  - feels faint
  - vomits blood
  - has bloody or black stools
  - has stomach pain that does not get better
- child has symptoms of heart problems or stroke: chest pain, trouble breathing, weakness in one part or side of body, slurred speech, leg swelling
- the child does not get any relief within first day (24 hours) of treatment
- fever or pain gets worse or lasts more than 3 days

Keep out of reach of children.

In case of overdose, get medical help or contact a Poison Control Center right away.

Each 5 mL contains:

- sodium 10 mg

Store at 20-25°C (68-77°F).

Directions

This product does not contain directions or complete warnings for adult use. Do not give more than directed. Shake well before using. Repeat dose every 6-8 hours, if needed. Do not use more than 4 times a day. Measure only with the dosing cup provided. Do not use with other products. Store at 20-25°C (68-77°F). Each dose line accounts for product remaining in cup due to thickness of suspension.

Directions

Shake well before using. Measure only with the dosing cup provided. Do not use more than 4 times a day. Measured dose lines account for product remaining in cup due to thickness of suspension.
