Questions? Call 1-800-289-9181

Prilosec OTC is to be used once a day (every 24 hours), every day for 14 days. Read Drug Facts label before trying.

TREATS FREQUENT HEARTBURN

© 2014 P&G
Dist. by Procter & Gamble, Cincinnati, OH 45202
Product of Sweden
One 14-day course of treatment

Tips for Managing Heartburn
• Do not lie down or bend over after eating
• Do not wear tight-fitting clothing around the stomach
• Do not eat before bedtime
• Raise the head of your bed
• Avoid heartburn-causing foods such as rich, spicy, fatty or fried foods, chocolate, caffeine, alcohol and certain fruits and vegetables
• Eat slowly and avoid big meals
• If overweight, lose weight
• Quit smoking

Drug Facts
Active ingredient (in each tablet) Purpose
Omeprazole delayed-release tablet 20 mg (equivalent to 20.6 mg omeprazole magnesium) ..... Acid reducer

Use
• treats frequent heartburn (occurs 2 or more days a week)
• not intended for immediate relief of heartburn; this drug may take 1 to 4 days for full effect

Warnings
Allergy alert: Do not use if you are allergic to omeprazole
Do not use if you have:
• trouble or pain swallowing food, vomiting with blood, or bloody or black stools

• heartburn with lightheadedness, sweating or dizziness
• chest pain or shoulder pain with shortness of breath; sweating; pain spreading to arms, neck or shoulders; or lightheadedness

These may be signs of a serious condition. See your doctor.
Ask a doctor before use if you have:
• had heartburn over 3 months. This may be a sign of a more serious condition.
• frequent wheezing, particularly with heartburn
• unexplained weight loss
• nausea or vomiting
• stomach pain

Ask a doctor or pharmacist before use if you are taking:
• warfarin, clopidogrel or cilostazol (blood-thinning medicines)
• prescription antifungal or anti-yeast medicines
• diazepam (anxiety medicine)
• digoxin (heart medicine)
• tacrolimus or mycophenolate mofetil (immune system medicines)
• prescription antiretrovirals (medicines for HIV infection)
• methotrexate (arthritis medicine)

Stop use and ask a doctor if:
• your heartburn continues or worsens
• you need to take this product for more than 14 days
• you need to take more than 1 course of treatment every 4 months

• you get diarrhea
• you develop a rash or joint pain

If pregnant or breast-feeding, ask a health professional before use.

Keep out of reach of children.

In case of overdose, get medical help or contact a Poison Control Center right away.

Directions
• for adults 18 years of age and older

• this product is to be used once a day (every 24 hours), every day for 14 days

• it may take 1 to 4 days for full effect; some people get complete relief of symptoms within 24 hours

14-Day Course of Treatment
• swallow 1 tablet with a glass of water before eating in the morning
• take every day for 14 days
• do not take more than 1 tablet a day
• do not use for more than 14 days unless directed by your doctor
• swallow whole. Do not chew or crush tablets.

Repeated 14-Day Courses (if needed)
• you may repeat a 14-day course every 4 months
• do not take for more than 14 days or more often than every 4 months unless directed by a doctor

• children under 18 years of age: ask a doctor. Heartburn in children may sometimes be caused by a serious condition.

Other information
• read the directions and warnings before use
• keep the carton. It contains important information.
• store at 20-25°C (68-77°F) and protect from moisture

Inactive ingredients
glyceryl monostearate, hydroxypropyl cellulose, hypromellose, iron oxide, magnesium stearate, methacrylic acid copolymer, microcrystalline cellulose, paraffin, polysorbate 80, polyvinylpyrrolidone, sodium stearylfumarate, starch, sucrose, talc, titanium dioxide, triethyl citrate

Questions?
1-800-289-9181
Warnings

Do not take for more than 14 days or more often than every 4 months unless directed by a doctor.
