Directions

Adults and children 3 years and older: Drink plenty of fluids. Begin with one 7.5 mL (1/2 tablespoon) dose. If needed, take up to 4 more doses of 7.5 mL (1/2 tablespoon) after the first dose, but no more than 40 mL (24 doses) in 24 hours. If diarrhea continues after 2 days, ask a doctor.

Children under 3 years: Do not use. Children 6 to 11 years: Ask a doctor.

Other information

• Each 30 mL contains: sodium 16 mg

• Store between 20-25°C (68-77°F)

• Do not use if printed inner or outer neck band is broken or missing.

• Make a doctor or pharmacist before use if you are taking a prescription drug. Loperamide may interact with prescription drugs.

• When using this product, children, infants or teenagers may experience drowsiness or dizziness. Be careful when driving or operating machinery.

• Stop use and ask a doctor if symptoms get worse or if diarrhea lasts for more than 2 days or if you get abdominal pain or fever after using this product. These may be signs of a serious condition.

• If pregnant or breast-feeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away (1-800-222-1222)

• Do not use if you have had a rash or other allergic reaction to loperamide HCl.

• Do not use if you have bloody or black stool.

• Do not use if you have fever or mucus in the stool.

• Do not use if you have a history of liver disease.

• Do not use if you have a history of abnormal heart rhythm.

• Shake well before using.

• Use only enclosed dosing cup specifically designed for use with this product. Do not use other dosing devices.

• Do not use more than prescribed.

• Do not use if printed inner or outer neck band is broken or missing.
Drug Facts

Active Ingredient (in Each 7.5 mL)
Loperamide HCl 1 mg

Purpose
Antidiarrheal

Directions
- Drink plenty of clear fluids to help prevent dehydration caused by diarrhea.
- For adults and children 12 years and older, shake well before using, 15 mL (slowly) after first loose stool; 75 mL after each subsequent loose stool; but no more than 8 doses in 24 hours.

Warnings
- Do not use in children 2 to 5 years of age unless directed by a doctor.
- Do not use in children under 2 years of age.
- Do not use if you have had an allergy to loperamide before.
- Do not use if you have severe abdominal pain with diarrhea. If you have severe abdominal pain with diarrhea that continues for more than 2 days, seek medical attention.
