

### Drug Facts

**Active ingredient Purpose**  
Olopatadine (0.1%)... Antihistamine and Redness Reliever  
(equivalent to olopatadine hydrochloride 0.111%)

**Uses** temporarily relieves itchy and red eyes due to pollen, ragweed, grass, animal hair and dander

#### Warnings

For external use only

#### Do not use

- if solution changes color or becomes cloudy
- if you are sensitive to any ingredient in this product
- to treat contact lens related irritation

#### When using this product

- do not touch tip of container to any surface to avoid contamination
- remove contact lenses before use
- wait at least 10 minutes before reinserting contact lenses after use
- do not wear a contact lens if your eye is red

#### Stop use and ask a doctor if you experience:

- eye pain
- changes in vision
- increased redness of the eye
- itching worsens or lasts for more than 72 hours

**Keep out of reach of children.** If swallowed, get medical help or contact a Poison Control Center right away.

#### Directions

- adults and children 2 years of age and older:
  - put 1 drop in the affected eye(s) twice daily, every 6 to 8 hours, no more than twice per day

### Drug Facts (continued)

- if using other ophthalmic products while using this product, wait at least 5 minutes between each product
- replace cap after each use
- children under 2 years of age: consult a doctor

#### Other information

- only for use in the eye
- store between 4°-25°C (39°-77°F)

#### Inactive ingredients

benzalkonium chloride 0.01%, dibasic sodium phosphate, hydrochloric acid/sodium hydroxide (adjust pH), purified water, and sodium chloride
