ONCE-DAILY **Gralise**<sup>®</sup> (gabapentin) tablets

**About your Gralise sample pack**  
Swallow tablet whole. Do not crush, split, or chew. This pack contains 15 days of Gralise treatment. Each day's dose is on its own row. Take all of the tablets in each day's row at once with the evening meal. The recommended dose of Gralise is 1800 mg each day. You will start at 300 mg and increase the dose gradually, and reach the 1800 mg dose on Day 15.

**It's time to start taking Gralise**  
It is important to take Gralise with your evening meal, as prescribed by your healthcare professional.

- Start with the tablet marked Day 1. Write the date on the line marked "Starting Date."
- After you have taken the tablets marked Day 7, find your next day's tablets at the top of the page marked Days 8 to 15.

Be sure to fill your Gralise prescription on or before Day 15 so you can keep taking your Gralise treatment as planned.

Please call your doctor if you have any questions about taking Gralise or if you experience any side effects. To report suspected side effects, contact Almatica Pharma LLC at 1-877-441-7979 or the FDA at 1-800-FDA-1088, or go to [www.fda.gov/medwatch](http://www.fda.gov/medwatch).

Please read the enclosed Medication Guide to learn important safety information about Gralise.
