Drug Facts

Active ingredient Purpose
Chlorhexidine gluconate 2% solution. ...Antiseptic

Uses

- helps reduce bacteria that can potentially cause skin infection
- for preparation of skin prior to surgery

Warnings

For external use only

Allergy alert:

This product may cause a severe allergic reaction. Symptoms may include:
■ wheezing/difficulty breathing
■ shock
■ facial swelling
■ hives
■ rash

If an allergic reaction occurs, stop use and seek medical help right away.

Do not use

- on patients allergic to chlorhexidine gluconate or any other ingredient in this product
- for lumbar punctures or in contact with the meninges
- on open skin wounds
- as a general skin cleanser

When using this product

- keep out of eyes, ears and mouth. May cause serious or permanent injury if chlorhexidine is permitted to enter and remain. If contact occurs, rinse with cold water right away and contact a doctor.

Stop use and ask a doctor if irritation, sensitization, or allergic reaction occurs. These may be signs of a serious condition.

Keep out of reach of children.

If swallowed, get medical help or contact a Poison Control Center right away.

Directions

- use with care in premature infants or infants under 2 months of age. These products may cause irritation or chemical burns.
- do not microwave
- product and packaging are not sterile. Follow your hospital policy for skin preparation with non-sterile products.
- to open package: identify the tear notch labeled on the front of the package. Grasp with hands on both sides of the tear notch and tear to expose cloth.
- transfer contents onto prep table, avoiding contact between cloth and outside of package to reduce risk of cloth contamination
- use a cloth to prepare the skin area indicated for a moist or dry site, making certain to keep the remaining cloths where they will not be contaminated. Use additional cloths to prepare larger areas.
- dry surgical sites (such as abdomen or arm): use one cloth to cleanse each 161 cm² area (approximately 5 x 5 inches) of skin to be prepared. Vigorously scrub skin back and forth for 3 minutes, completely wetting treatment area, then discard. Allow area to dry for one (1) minute. Do not rinse.
- moist surgical sites (such as inguinal fold): use one cloth to cleanse each 65 cm² area (approximately 2 x 5 inches) of skin to be prepared. Vigorously scrub skin back and forth for 3 minutes, completely wetting treatment area, then discard. Allow area to dry for one (1) minute. Do not rinse.
