APPROVAL LETTER
Dear Ms. Cole:

Please refer to your New Drug Application (NDA) dated February 4, 2015, received February 4, 2015, and your amendments, submitted pursuant to section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for QuilliChew ER (methylphenidate hydrochloride) extended-release chewable tablets 20 mg, 30 mg, and 40 mg.

This new drug application provides for the use of QuilliChew ER (methylphenidate hydrochloride) extended-release chewable tablets for Attention Deficit Hyperactivity Disorder (ADHD).

We have completed our review of this application, as amended. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling text.

**WAIVER OF HIGHLIGHTS SECTION**

We are waiving the requirements of 21 CFR 201.57(d)(8) regarding the length of Highlights of prescribing information. This waiver applies to all future supplements containing revised labeling unless we notify you otherwise.

**CONTENT OF LABELING**

The SPL will be accessible via publicly available labeling repositories.
CARTON AND IMMEDIATE CONTAINER LABELS

We acknowledge your November 11, 2015, submission containing final printed carton and container labels.

REQUIRED PEDIATRIC ASSESSMENTS

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

We are waiving the pediatric study requirement for ages 0 to 4 years because the product does not represent a meaningful therapeutic benefit over existing therapies for pediatric patients in this age group and is not likely to be used in a substantial number of pediatric patients in this group for the following reasons:

- There are no validated diagnostic criteria and assessment measures for diagnosing ADHD in children 0 to 4 years of age;
- Assessment measures for determining treatment effect in children 0 to 4 years of age are not well defined;
- Non-medication interventions are preferred treatment for behavioral disorders such as ADHD in very young children (e.g., 0 to 4 years of age). Therefore, the use of medication to treat ADHD in children 0 to 4 years of age is generally not recommended, and studies in this age group are a challenge with regard to patient safety and study validity.

We are deferring submission of your pediatric studies for patients ages 4 to 5 years for this application because this product is ready for approval for use in adults and pediatric patients ages 6 years and older, and the studies in patients ages 4 to 5 years have not been completed.

Your deferred pediatric studies required by section 505B(a) of the FDCA are required postmarketing studies. The status of these postmarketing studies must be reported annually according to 21 CFR 314.81 and section 505B(a)(3)(B) of the FDCA. These required studies are listed below.

3009-1 Conduct a Pharmacokinetic study in Attention Deficit Hyperactivity Disorder (ADHD) patients aged 4 to 5 years old.

Final Protocol Submission: 09/2016
Study Completion: 12/2019
Final Report Submission: 09/2020

Reference ID: 3856248
3009-2 Conduct a 6-week, double-blind, placebo-controlled, randomized, parallel-group safety and efficacy study in children with Attention Deficit Hyperactivity Disorder (ADHD) 4 to 5 years of age using methylphenidate ER formulation (QuilliChew ER)

Final Protocol Submission: 09/2016
Study Completion: 12/2019
Final Report Submission: 09/2020

3009-3 Conduct a 6-month, open-label extension study to obtain additional information on safety and tolerability of methylphenidate ER formulation (QuilliChew ER) in children 4 to 5 years of age with Attention Deficit Hyperactivity Disorder (ADHD)

Final Protocol Submission: 09/2016
Study Completion: 06/2020
Final Report Submission: 03/2021

Submit the protocols to your IND 111020, with a cross-reference letter to this NDA.

Reports of these required pediatric postmarketing studies must be submitted as a new drug application (NDA) or as a supplement to your approved NDA with the proposed labeling changes you believe are warranted based on the data derived from these studies. When submitting the reports, please clearly mark your submission "SUBMISSION OF REQUIRED PEDIATRIC ASSESSMENTS" in large font, bolded type at the beginning of the cover letter of the submission.

This product is appropriately labeled for use in ages 6 to 17 years for this indication. Therefore, no additional studies are needed in this pediatric group.

**PROMOTIONAL MATERIALS**

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit, in triplicate, a cover letter requesting advisory comments, the proposed materials in draft or mock-up form with annotated references, and the package insert, Medication Guide, and patient PI (as applicable) to:

OPDP Regulatory Project Manager
Food and Drug Administration
Center for Drug Evaluation and Research
Office of Prescription Drug Promotion
5901-B Ammendale Road
Beltsville, MD 20705-1266

Alternatively, you may submit a request for advisory comments electronically in eCTD format. For more information about submitting promotional materials in eCTD format, see the draft

As required under 21 CFR 314.81(b)(3)(i), you must submit final promotional materials, and the package insert, at the time of initial dissemination or publication, accompanied by a Form FDA 2253. Form FDA 2253 is available at http://www.fda.gov/downloads/AboutFDA/ReportsManualsForms/Forms/UCM083570.pdf. Information and Instructions for completing the form can be found at http://www.fda.gov/downloads/AboutFDA/ReportsManualsForms/Forms/UCM375154.pdf. For more information about submission of promotional materials to the Office of Prescription Drug Promotion (OPDP), see http://www.fda.gov/AboutFDA/CentersOffices/CDER/ucm090142.htm.

**REPORTING REQUIREMENTS**

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Hiren Patel, Regulatory Project Manager, at (301) 796-2087.

Sincerely,

{See appended electronic signature page}
