Product Type: [REDACTED] (b) (4)

1 INTRODUCTION

This memorandum is to reassess the proposed proprietary name, Vermox Chewable, which was found conditionally acceptable under IND 115959 on December 11, 2015.¹

We note that there is a change in the Indications and Usage from [REDACTED] (b) (4) [REDACTED] IND 115959 to [REDACTED] (b) (4) [REDACTED] for NDA 208398. All other product characteristics remain the same.

2 METHODS AND DISCUSSION

For re-assessment of the proposed proprietary name, DMEPA evaluated the previously identified names of concern considering any lessons learned from recent post-marketing experience, which may have altered our previous conclusion regarding the acceptability of the proposed proprietary name. Additionally, DMEPA searched the USAN stem list to determine if the name contains any USAN stems as of the last USAN updates. The May 4, 2016 search of USAN stems did not find any USAN stems in the proposed proprietary name.

2.1 MISBRANDING ASSESSMENT

The Office of Prescription Drug Promotion (OPDP) determined that the proposed name would not misbrand the proposed product. DMEPA and the Division of Anti-Infective Products (DAIP) concurred with the findings of OPDP's assessment of the proposed name.

2.2 Medication Error Data Selection of Cases

An updated search of the FDA Adverse Event Reporting System (FAERS) database (date range September 2, 2015 to May 6, 2016) using the same criteria as listed in the previous review¹ did not identify any name confusion error cases that were relevant for this review.

3 CONCLUSIONS

Our re-assessment did not identify any names that represent a potential source of drug name confusion. Therefore, we maintain that the proposed proprietary name is acceptable.

If you have any questions or need clarifications, please contact Janet Higgins, OSE project manager, at 240-402-0330.

3.1 COMMENTS TO THE APPLICANT

We have completed our review of the proposed proprietary name, Vermox Chewable, and have concluded that this name is acceptable.
