APPROVAL LETTER
Dear Dr. McGraw:

Please refer to your New Drug Application (NDA) dated March 29, 2016, received March 29, 2016 and your amendments, submitted under section 505(b)(2) of the Federal Food, Drug, and Cosmetic Act (FDCA) for AirDuo RespiClick (fluticasone propionate/salmeterol) inhalation powder, 55/14 mcg, 113/14 mcg, and 232/14 mcg.

This new drug application provides for the use of AirDuo RespiClick (fluticasone propionate/salmeterol) inhalation powder for the treatment of asthma in patients 12 and older.

We have completed our review of this application. It is approved, effective on the date of this letter, for use as recommended in the enclosed agreed-upon labeling text.

**CONTENT OF LABELING**

The SPL will be accessible via publicly available labeling repositories.

**CARTON AND IMMEDIATE CONTAINER LABELS**

Submit final printed carton and immediate container labels that are identical to the enclosed carton and immediate container labels, as soon as they are available, but no more than 30 days after they are printed. Please submit these labels electronically according to the guidance for industry *Providing Regulatory Submissions in Electronic Format — Certain Human Pharmaceutical Product Applications and Related Submissions Using the eCTD Specifications (May 2015, Revision 3)*. Alternatively, you may submit 12 paper copies, with 6 of the copies individually mounted on heavy-weight paper or similar material. For administrative purposes, designate this submission “Final Printed Carton and Container Labels for approved NDA 208799.” Approval of this submission by FDA is not required before the labeling is used.

**ADVISORY COMMITTEE**

Your application for AirDuo RespiClick was not referred to an FDA advisory committee because this drug is not the first in its class; the safety profile is similar to that of other drugs approved for this indication; outside expertise was not necessary; there were no controversial issues that would benefit from advisory committee discussion.

**REQUIRED PEDIATRIC ASSESSMENTS**

Under the Pediatric Research Equity Act (PREA) (21 U.S.C. 355c), all applications for new active ingredients, new indications, new dosage forms, new dosing regimens, or new routes of administration are required to contain an assessment of the safety and effectiveness of the product for the claimed indication(s) in pediatric patients unless this requirement is waived, deferred, or inapplicable.

We are waiving the pediatric study requirement for age birth to less than 4 years because necessary studies are impossible or highly impracticable.

We are deferring submission of your pediatric studies for ages 4 to less than 12 years for this application because this product is ready for approval for use in adults and the pediatric studies have not been completed.

Your deferred pediatric studies required by section 505B(a) of the Federal Food, Drug, and Cosmetic Act/FDCA are required postmarketing studies. The status of these postmarketing studies must be reported annually according to 21 CFR 314.81 and section 505B(a)(3)(C) of the Federal Food, Drug, and Cosmetic Act/FDCA. The required studies are listed below.

3155-1 Conduct a double-blind (incorporating an open-label comparator), 3-period, crossover study to determine the pharmacokinetic profile and tolerability of single doses of fluticasone propionate inhalation powder multi-dose dry powder inhaler (MDPI) and fluticasone propionate/salmeterol xinafoate inhalation powder MDPI
compared to Advair Diskus in patients with persistent asthma 4 through 11 years of age.

Final Report Submission: December 2019

3155-2 Conduct a 12-week, randomized, double-blind, placebo-controlled, efficacy and safety study of fluticasone propionate inhalation powder multi-dose dry powder inhaler (MDPI) compared with fluticasone propionate/salmeterol xinafoate inhalation powder MDPI in patients with persistent asthma 4 through 11 years of age.

Study/Trial Completion: May 2019
Final Report Submission: December 2019

Submit the protocols to your IND 72240, with a cross-reference letter to this NDA. Reports of these required pediatric postmarketing studies must be submitted as a new drug application (NDA) or as a supplement to your approved NDA with the proposed labeling changes you believe are warranted based on the data derived from these studies. When submitting the reports, please clearly mark your submission "SUBMISSION OF REQUIRED PEDIATRIC ASSESSMENTS" in large font, bolded type at the beginning of the cover letter of the submission.

PROMOTIONAL MATERIALS

You may request advisory comments on proposed introductory advertising and promotional labeling. To do so, submit, in triplicate, a cover letter requesting advisory comments, the proposed materials in draft or mock-up form with annotated references, and the package insert, Medication Guide, and patient PI (as applicable) to:

OPDP Regulatory Project Manager
Food and Drug Administration
Center for Drug Evaluation and Research
Office of Prescription Drug Promotion
5901-B Ammendale Road
Beltsville, MD 20705-1266

Alternatively, you may submit a request for advisory comments electronically in eCTD format. For more information about submitting promotional materials in eCTD format, see the draft Guidance for Industry (available at: http://www.fda.gov/downloads/Drugs/GuidanceComplianceRegulatoryInformation/Guidances/UCM443702.pdf).

As required under 21 CFR 314.81(b)(3)(i), you must submit final promotional materials, and the package insert, at the time of initial dissemination or publication, accompanied by a Form FDA 2253. Form FDA 2253 is available at http://www.fda.gov/downloads/AboutFDA/ReportsManualsForms/Forms/UCM083570.pdf.
Information and Instructions for completing the form can be found at http://www.fda.gov/downloads/AboutFDA/ReportsManualsForms/Forms/UCM375154.pdf. For more information about submission of promotional materials to the Office of Prescription Drug Promotion (OPDP), see http://www.fda.gov/AboutFDA/CentersOffices/CDER/ucm090142.htm.

REPORTING REQUIREMENTS

We remind you that you must comply with reporting requirements for an approved NDA (21 CFR 314.80 and 314.81).

If you have any questions, call Laura Musse, Regulatory Project Manager, at (240) 402-3720.

Sincerely,

{See appended electronic signature page}
