APPROVAL LETTER
TAP Holdings, Inc.
Attention: Aruna Dabholkar, M.D.
Associate Director, Regulatory Affairs
2355 Waukegan Road
Deerfield, IL 60015

Dear Dr. Dabholkar:

We acknowledge receipt of your submissions dated June 21, 1999 and July 9, 1999.

These supplemental new drug applications provide for a new manufacturing site for the prefilled dual chamber syringe.

We have completed the review of these supplemental applications and they are approved.

We remind you that you must comply with the requirements for an approved NDA set forth under 21 CFR 314.80 and 314.81.

If you have any questions, contact Jennifer Mercier, Regulatory Project Manager, at (301) 827-4260.

Sincerely,

APPROVABLE LETTER
TAP Holdings, Inc.
Attention: Aruna Dabholkar, M.D.
Associate Director, Regulatory Affairs
2355 Waukegan Road
Deerfield, IL 60015

Dear Dr. Dabholkar:

We acknowledge receipt of your faxed submission dated June 21, 1999.

These supplements propose a new manufacturing site for manufacturing the prefilled dual chamber syringe.

We have completed the review of these applications, as amended, and they are approvable. Before these applications may be approved, however, it will be necessary for you to address the following:

1.

2.

3.
Redacted ___ page(s) of trade secret and/or confidential commercial information from Appravable Letter (S-006)
Within 10 days after the date of this letter, you are required to amend the supplemental applications, notify us of your intent to file amendments, or follow one of your other options under 21 CFR 314.740. In the absence of any such action FDA may proceed to withdraw the applications. Any amendment should respond to all the deficiencies listed. We will not process a partial reply as a major amendment nor will the review clock be reactivated until all deficiencies have been addressed.

These products may be considered to be misbranded under the Federal Food, Drug, and Cosmetic Act if they are marketed with these changes prior to approval of these supplemental applications.

If you have any questions, contact Jennifer Mercier, Project Manager, at (301) 827-4260.

Sincerely,

16. **PRIOR APPROVAL SUPPLEMENT PROVIDES FOR:** New manufacturing site for manufacturing the prefilled dual chamber syringe

17. **COMMENTS:**

The prefilled dual chamber syringe was approved as a new container closure system in December 1996 (NDA 20-517/S001) and in July 1998 (NDA 20-517, S005 and NDA 20-708, S004). The manufacturing was approved at Osaka plant in Japan. The manufacturer, Takeda Chemical Industries submitted this supplement to add an additional site for filling the syringes at Hikari plant. The diluent used to fill these syringes will be manufactured at the Hikari plant. The active drug, C4 will be manufactured at the previously approved sites (Shanan plant and Osaka plant). The syringe components, manufacturing method and the final product specifications and testing methods are the same as approved before. The new plant and the manufacturing process are validated. Three months of accelerated and RT stability has been included in the application for one production lot of each of Lupron Depot –3 month 11.25 mg, 22.5 mg and 4-Month 30 mg and the results are satisfactory. Quality of the product manufactured at Hikari plant was compared with the corresponding one manufactured at the approved site, Osaka plant and no significant changes have been observed.

The new facility (Hikari plant) should be inspected according to CFR 314.70 and a request has been forwarded through EES on 28-December-1998. Overall recommendation is found 'acceptable' on 6/15/99 based on an inspection performed on 5-19-99.

Since the diluent will be manufactured at the Hikari plant and it needs to be sterile, the application was also reviewed by a microbiologist (Dr. Carol K. Vincent, HFD-805) and it was found deficient.

18. **CONCLUSIONS AND RECOMMENDATIONS:**

This application is 'approvable' pending satisfactory resolution of the microbiologist's concerned issues as delineated in the draft letter.
