

MGF-400105
Bemotrizinol (BEMT)

3.2.P.4.2 Analytical procedure

All excipients are stable and safe for their intended use as listed in [Table 1 in section 3.2.P.4.1](#) in sunscreen products.

The W/O emulsion (SU-E-101413-89) needs to be considered as market-image formula and for its only use during the clinical MUsT study. Consequently, the validation of analytical procedure and further justification of specifications are not applicable.
