Contains Nonbinding Recommendations
Draft Guidance on Naproxen Sodium; Sumatriptan Succinate

This draft guidance, once finalized, will represent the Food and Drug Administration's (FDA's) current thinking on this topic. It does not create or confer any rights for or on any person and does not operate to bind FDA or the public. You can use an alternative approach if the approach satisfies the requirements of the applicable statutes and regulations. If you want to discuss an alternative approach, contact the Office of Generic Drugs.

Active ingredient: Naproxen Sodium; Sumatriptan Succinate

Form/Route: Tablet/Oral

Recommended studies: 2 studies

1. Type of study: Fasting
   Design: Single-dose, two-way crossover in-vivo
   Strength: 500 mg (Naproxen Sodium); EQ 85 mg base (Sumatriptan Succinate)
   Subjects: Healthy males and non-pregnant females, general population.
   Additional Comments: Tablets should not be split, crushed, or chewed.

2. Type of study: Fed
   Design: Single-dose, two-way crossover in-vivo
   Strength: 500 mg (Naproxen Sodium); EQ 85 mg base (Sumatriptan Succinate)
   Subjects: Healthy males and non-pregnant females, general population.
   Additional Comments: Please see comment above/

Analytes to measure (in appropriate biological fluid): Naproxen and sumatriptan in plasma.

Bioequivalence based on (90% CI): Naproxen and Sumatriptan

Waiver request of in-vivo testing: Not Applicable

Dissolution test method and sampling times:

Please note that a Dissolution Methods Database is available to the public at the OGD website at http://www.accessdata.fda.gov/scripts/cder/dissolution/. Please find the dissolution information for this product at this website. Please conduct comparative dissolution testing on 12 dosage units each of all strengths of the test and reference products. Specifications will be determined upon review of the application.
