BLENREP REMS Fact Sheet

BLENREP REMS Overview

What is the BLENREP REMS (Risk Evaluation and Mitigation Strategy)?

The BLENREP REMS is a safety program that manages the risk of ocular toxicity from BLENREP. The BLENREP REMS is required by the Food and Drug Administration (FDA) to ensure that the benefits of the drug outweigh its risks. The BLENREP REMS is a restricted distribution program.

- **Prescribers** must be certified with the program by enrolling and completing training in the BLENREP REMS.
- **Healthcare Settings** must be certified with the program and verify that patients are authorized to receive BLENREP.
- **Patients** must be enrolled in the BLENREP REMS and comply with monitoring.
- **Wholesalers and distributors** must only distribute BLENREP to certified Healthcare Settings.

What is the Risk?

- BLENREP caused changes in the corneal epithelium resulting in:
  - Changes in vision, including severe vision loss and corneal ulcer
  - Symptoms such as blurred vision and dry eyes

How can Prescribers Manage the Risk?

- Counsel patients receiving BLENREP about the risk of ocular toxicity and on the need for ophthalmic examinations (visual acuity and slit lamp) at baseline, prior to each dose, and promptly for worsening symptoms.
- Assess the patient’s ocular health by consulting an eye care professional to complete visual acuity and slit lamp examinations using the *Eye Care Professional Consult Request Form* or equivalent.
- Assess the ophthalmic exam results for corneal adverse reactions, which are based on both corneal examination findings and changes in best-corrected visual acuity (BCVA). Document these findings using the *Patient Status Form* prior to each dose in the REMS.
- Manage corneal adverse reactions per the *Prescribing Information* with dose reductions or withhold BLENREP until improvement and resume, or permanently discontinue, based on severity.

To enroll in the BLENREP REMS Program

What are the key requirements of the BLENREP REMS?

**Prescribers**
- Review the training: *BLENREP Prescribing Information, Program Overview, and Education Program for Prescribers*
- Complete the Knowledge Assessment and Prescriber Enrollment Form
- Submit the completed and signed Knowledge Assessment and Prescriber Enrollment Form at www.BLENREPREMS.com, or fax to 1-888-635-1044
- You will not be able to prescribe BLENREP without completing your certification in the BLENREP REMS

**Healthcare Settings**
- Designate an authorized representative to review the following: *BLENREP Prescribing Information, Program Overview and Education Program for Healthcare Settings*
- Complete the Healthcare Setting Enrollment Form
- Implement staff training and procedures to comply with the BLENREP REMS
- You will not be able to order BLENREP without completing your certification in the BLENREP REMS

**Patient Responsibilities**
- Prescribers: Using the Patient Guide, counsel patient on ocular adverse reaction risk and ophthalmic exam requirements
- Complete the Patient Enrollment Form and submit a copy online or via fax

**Wholesalers-Distributors**
- Establish processes and procedures to ensure that BLENREP is distributed only to certified Healthcare Settings
- Train all relevant staff involved in distribution of the BLENREP REMS requirements

**Reporting Adverse Events**
You are encouraged to report adverse reactions of BLENREP to GSK at 1-888-825-5249 and/or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

This Fact Sheet does not contain the complete safety information for BLENREP. For complete safety information, please see the full Prescribing Information, including Boxed Warning, available at www.BLENREPREMS.com.
