BLENREP REMS (Risk Evaluation and Mitigation Strategy)

The BLENREP REMS is a safety program that manages the risk of ocular toxicity from BLENREP. The BLENREP REMS is required by the Food and Drug Administration (FDA) to ensure the potential benefits of BLENREP outweigh its risks. BLENREP is only available through the BLENREP REMS, a restricted distribution program.

Prescribers must become certified in the BLENREP REMS to prescribe BLENREP.

PATIENTs

Patients who are prescribed BLENREP must be enrolled in the BLENREP REMS.

LEARN ABOUT PATIENT ENROLLMENT.

LEARN MORE

To learn more about the risks associated with BLENREP please refer to the Prescribing Information, Including Boxed Warning, and the Medication Guide.

To report side effects please contact GlaxoSmithKline at 1-888-825-5269 or FDA at 1-888-999-9667 or call 1-800-FDA-1088 (1-800-332-1088).
To Become Certified in the BLENREP REMS, Prescribers Must:

1. Complete the training program, which includes reviewing the following educational materials:
   - Prescribing Information
   - Program Overview
   - Education Program for Prescribers

2. Successfully complete and submit the Knowledge Assessment
   - Online
   - By fax at 1-888-435-1094

3. Enroll in the program by completing the Prescriber Enrollment Form and submitting it to the BLENREP REMS
   - Online
   - By fax at 1-888-435-1094

4. The Healthcare Setting where BLENREP will be administered to the patient also needs to be enrolled in the REMS. If this is at your clinic, please refer to the Healthcare Setting Instructions within the Program Overview. If this is not at your clinic, then reach out to the Healthcare Setting to inform them that they need to enroll in the REMS.

The BLEREP REMS will send confirmation of a prescriber’s enrollment within 2 business days, including the prescriber’s assigned BLEREP REMS identification number. You will not be able to prescribe BLEREP without completing your certification in the BLEREP REMS. If you fail to comply with the BLEREP REMS requirements, you will no longer be able to participate in the BLEREP REMS.

How Do I Enroll a Patient in the BLEREP REMS Program?

1. Counsel your patient using the Patient Guide (English / Spanish) about:
   - the risk of ocular toxicity and
   - the requirement for monitoring via ophthalmic exams (visual acuity and slit lamp):
     - at baseline
     - prior to each dose and
     - promptly for worsening symptoms

2. Complete and submit the Patient Enrollment Form:
   - Online
   - By fax (English / Spanish) at 1-888-435-1044

The BLEREP REMS will send confirmation of a patient’s enrollment within 2 business days, including the patient’s assigned BLEREP REMS identification number. Patients who are prescribed BLEREP must be enrolled in the BLEREP REMS.

Patient Management:

Before Treatment
- Assess the patient’s ocular health by consulting an eye care professional to complete visual acuity and slit lamp examinations using the Eye Care Professional Consult Request Form.
- Assess the patient’s ophthalmic consult results for appropriateness of initiating treatment. Document and submit to the BLEREP REMS using the Patient Status Form.

During Treatment
- Assess the patient’s ocular health by consulting an eye care professional to complete visual acuity and slit lamp examinations using the Eye Care Professional Consult Request Form.
- Assess the patient’s ophthalmic consult results for adverse reactions, which are based on both corneal examination findings and changes in best-corrected visual acuity (BCVA).
- Monitor corneal adverse reactions per Table 1. "Dosage Modifications for Corneal Adverse Reactions per the Keratopathy and Visual Acuity (KVA) Scale in the Prescribing Information" with dose reductions or withdrawal of BLEREP until improvement or permanently discontinues based on severity.
- If continuation of therapy is appropriate, document and submit the Patient Status Form to the BLEREP REMS.
   - Online
   - By fax at 1-888-435-1044

Notify the BLEREP REMS if an enrolled patient who received BLEREP is no longer under your care or has discontinued treatment.
Healthcare Settings

To Become Certified in the BLENREP REMS, Healthcare Settings Must:

1. Designate an Authorized Representative.
2. Review the Prescribing Information, Program Overview and the Education Program for Healthcare Settings.
3. Complete and submit the Healthcare Setting Enrollment Form.
   - Online
   - By fax at 1-866-635-1064

The BLENREP REMS will send certification of a healthcare setting's enrollment within 2 business days, including the Healthcare Setting's assigned BLENREP REMS Identification number. The Healthcare Setting will be able to order dispersion BLENREP without completing certification in the BLENREP REMS. If the Healthcare Setting fails to comply with the BLENREP REMS requirements, the Healthcare Setting will no longer be able to participate in the BLENREP REMS.

Instructions for Healthcare Settings:

Before administering:

1. Train all relevant staff involved in dispensing and administering BLENREP using:
   - Program Overview
   - Education Program for Healthcare Settings
2. Establish processes and procedures to verify the REMS Checklist is completed and submitted for each patient.
3. Obtain authorization to administer each dose by logging into the BLENREP REMS portal to verify:
   - prescriber is certified
   - patient is enrolled and authorized to receive BLENREP

After administering, within 5 business days:

1. Capture the dose and date of infusion in the online REMS Checklist and submit it to the REMS within 5 business days of the infusion.
   - Online
   - By fax at 1-866-635-1064

To maintain certification to administer:

1. Have a new authorized representative enroll in the REMS Program by completing the Healthcare Setting Enrollment Form and submitting it to the REMS program if the authorization representative changes.

At all times:

1. Do not distribute, transfer, loan, or sell BLENREP
2. Maintain records documenting staff's completion of REMS training
3. Maintain records to document all processes and procedures are in place and being followed
4. Comply with audits carried out by GlassSmithKline or third parties acting on behalf of GlassSmithKline to ensure all processes and procedures are in place and are being followed.

*Alternatively, you may contact the BLENREP REMS Coordinating Center at 1-855-250-7156 to verify this information and obtain the authorization to dispense BLENREP.

Who Can Be an Authorized Representative?

An Authorized Representative at the Healthcare Setting can be:

- Pharmacist
- Physician
- Director of Healthcare Setting
- Nurse
- Nurse Practitioner
- Physician Assistant
- Or any responsible individual in the Healthcare Setting

Please check with your manager to ensure the appropriate person represents the Healthcare Setting and adheres to the enrollment requirements as stated on the Healthcare Setting Enrollment Form.

One representative needs to enroll per Healthcare Setting (the "authorized representative"). One authorized representative can manage more than one Healthcare Setting and has the ability to add additional users to the online portal.
A Risk Evaluation and Mitigation Strategy (REMS) is a drug safety program that the U.S. Food and Drug Administration (FDA) can require for certain medicines with serious safety concerns. Drug companies and healthcare providers must take extra steps to make sure the benefits of using the drug are more than the risks. FDA must approve these steps as part of a REMS.

BLENREP has a REMS because of the risk of eye problems. The BLENREP REMS educates patients and doctors about the risks associated with BLENREP. You must be enrolled in the BLENREP REMS to get BLENREP.

How Do I Enroll in the BLENREP REMS and What is Required of Me?

1. Your healthcare provider will go over this Patient Guide (English / Spanish) with you to ensure that you understand:
   - Eye problems are common with BLENREP.
   - The risk of eye problems while you are on treatment with BLENREP, which can cause changes to the surface of your eye that can lead to dry eyes, blurred vision, worsening vision, severe vision loss, and corneal ulcer.
   - The need to see an eye specialist to check your eyes:
     - before starting treatment with BLENREP
     - prior to each dose of BLENREP
     - if you have worsening symptoms of eye problems
   - Even if your vision seems fine, it is important that you get your eyes checked during treatment with BLENREP because some changes can happen without symptoms and may only be seen on an eye exam.
   - You should use preservative-free lubricant eye drops at least 4 times per day during treatment with BLENREP as instructed by your healthcare provider.
   - You should use caution when driving or operating machinery as BLENREP may affect your vision.
   - Avoid wearing contact lenses during treatment with BLENREP unless directed by your eye specialist.

2. Your healthcare provider will help you complete and sign the Patient Enrollment Form (English / Spanish) to enroll you in the BLENREP REMS.
