Please read the following statements carefully.

Your healthcare provider has prescribed THALOMID for your child.* THALOMID is available only through a restricted distribution program called THALOMID Risk Evaluation and Mitigation Strategy (REMS). Before taking THALOMID, patients must read and agree to all of the instructions in the THALOMID REMS® program.

Any unborn baby of a girl taking THALOMID can have severe birth defects or even die. THALOMID causes a higher chance for blood clots in your veins (deep vein thrombosis) and lungs (pulmonary embolism).

For more information, please see the THALOMID Medication Guide.
